DRAINAGE VIEWERS HAVE FILED REPORT

HAVE INVESTIGATED THE ROCKY RIVER SWAMP

PLAN IS FEASIBLE

Drain Many Acres of Marsh Land and Doing Away With the Contaminated Water

(From Thursday's Daily.) The Board of Viewers, consisting of W. A. Sanders, Oliver Bolt and George W. Labcon, appointed some days ago by James N. Pearman, clerk of court, to view the Rocky River swamp land and report as to whether or not it can be drained, fised a complete report with Mr. Pearman yester-day. The Viewers state that the prop-osition is teasible and they seem to be osition is teasible and they seem to be heartly in favor of the proposed move. Since this report has been filed the Clerk of Court will set read for a final hearing or d at this time the property owners will be given an opportunity to appear and state any objections they may have to a drainage district being found. If there is no constraint coard or sustained the district will be formed and the work of arain.

p a sit seard or sustained the district will be formed and the work of draining the lands will proceed.

The following is the complete report of the viewers, as filed yesterday:

"Anderson, S. C., May 19, 121;

"We, the undersigned, appointed by Jas. N. Pearman, Clerk of Court of Anderson County, S. C., to act as the Board of Viewers to investigate the proposed Rock River Drainage District have this the 19th, day of May, 1911. have this the 19th, day of May, 1911, examined the lands described in said petition and find:

ist, it to be a very practicable proposition.

2nd. We find that it will benefit the public health by draining many reres of marsh land then by riding the community of great bodies of contaminated water, also benefit several highways and protect them from food waters, and will be conductive to op-ening up many acres of fertile land." 3rd. We believe these lands in the roposed Drainage District will be cenefited beyord comparison as to

their condition at present."

4th. We advise that all the lands included in plans herewith will be beacfited, but not practicable to extend the Drainage District up the sterams furer than shown by plans herewith, but advise that the Drainage work proceed to the above stated extent."

"We also find that quantities of sand is constantly washing in from the hills through the small branches, and hill side ditches which block the main thannel, thereby raising its bed to such a height that the water flows into the surrounding bottoms. We advise that the success of the proposed drainage will depend on a system of side hill ditches maintained by each land owner to prevent this and getting into the leain channel which if you into the main channel which if not taken care of will bring the Drainage District back to its present condition."

DR. STEEL WILL BE THE SPEAKER

Famous Lecturer Coming To Anderson To Deliver Oration On the Second Reunion Night

(From Thursday's Daily.) It was announced in Anderson yeserday that a contract had been closed with Dr. S. A. Steel of the National Chautauqua Bureau for the principal address on the second night of the Confederate Reunion here. Dr. Steel will speak at 8:30 o'clock on the night

Dr. Steel is a native of Mississippi and at present is the head of a college for young women in Jackson, Tenn. His early life was spent amid the furbulent scense of the Civil War and he graphically describes the con-ditions existing at that time in his splendid lecture, "Home Life In Dixie During the War."

The orator for the Auderson rennion has long held responsible positions with the Methodist Church and was the first general secretary of the Ep-worth league. He is a man of national note and Anderson people will flock to hear him.
Dr. Steel has hundreds of testimon-

ials, but he especially values the fol-lowing from P. W. Horn, Superintend-ont of Public Schools in Houston, Tex-Int of Public Schools in Houston, Tex-ns, and one of the most intelligent and successful men in his profession. Mr. Horn said: "I particularly enjoyed your facture the other night on "Home Lifte in Dixle Duing the War." I wist that every school child in Texas could near the lecture, and I am sure that it near the fecture, and I am sure that it would be pleasant and profitable for the older people to hear it also. My enjoyment of it was only increased by the fact that I had heard it ones or twice before. When you enjoy an address the second time even better tha you did the first, it shows that there must be constituted to the second time and the second time are the second time. must be something at least worth while in it. My recollection of the former hearing is very clear. I even noted the details sufficiently to recomber that the former time, in telli-
